

SPRING ORGANIZING

GET READY TO GRACE YOUR SPACE WITH TIPS FROM THE
PROFESSIONAL ORGANIZERS AT GRACE THIS SPACE INTERIORS!

SET EXPECTATIONS

Figuring out where to start can be overwhelming

- Be realistic, changes don't happen overnight
- Before you tackle any rooms, write down your **ACTION PLAN**
- Make a checklist of everything you would like to accomplish

DEVELOP A SYSTEM

- Organize items first, and then shift to the deep cleaning
- Work your way around your house in a clockwise motion

STAY, GO OR THROW?

- Go through items, donating and/or tossing items you no longer need, and rearranging items to keep
- Rotate your articles of clothing, coats and shoes stored in your closet based on the season
- Store away items associated with the offseason in bins

TAKE BABY STEPS

- Give yourself at least a day for each room
- Know that your home may be organized chaos for a week or two while you tackle it
- Don't move on from a space until it is finished

Once you've purged, organized and developed helpful systems in your home - it is time to relax! If you need help, anywhere from getting started to finishing the job, give us a call for a free consultation!
